Fernando Chavez Reyes,

The Jackson County Health Department approves the plans for the Bailey Farms aquatic facility located in Lees Summit MO. If you have any questions, feel free to contact me. Thank You for your time and have a great day.

Please note that all requirements of the Jackson County Aquatic Venue code must be addressed prior to requesting final approval to operate. The following are some of the problems we often find during the final inspection for approval.

- designed patron load signage
- pool/spa rules (page 8 AV Ordinance)
- no lifeguard on duty signage - didn't see lifeguard stands
- no smoking sign in the chemical storage room
- chemical room will need shelves so chemicals can be stored above the floor.
- must have a CPO/AFO certified operator for managing the pool.
- emergency phone & address posted
- safety equipment required
- depth markers on the deck and on the interior wall of pool.
- gates w/automatic latch
- VGB Compliance
