RE: LXT Hangar 2 – Special Inspection Services – Final Report
Lee's Summit Municipal Airport
Lee's Summit, Missouri
Olsson Project No. 024-05129

Dear Ms. Wellner:

By your request, Olsson, Inc. has provided construction observation and testing services for the above-referenced project. Our services were performed part-time to full-time as scheduled by representatives with Fogel Anderson between August 21, 2024 and May 13, 2025.

Final Report

This report represents Olsson's final special inspections for the LXT Hangar 2 project located in Lee's Summit, Missouri. The special inspection items observed and tested by our field personnel have included site grading, rammed aggregate piers, foundation bearing materials, reinforced concrete, post-installed anchor bolts, structural masonry, steel fabrication shop inspections, and structural steel. The items observed and/or tested by our field personnel and explicitly reported in this or previously submitted summary reports were in compliance with the project specifications or have been reworked to meet the project specifications and/or project engineer's recommendations. At this time, all known discrepancies with the project specifications have been resolved.

If you have any questions regarding this report, or if we may be of any further service, please contact us at 913.208.5452.

Respectfully Submitted;
OLSSON, INC.
