

RE: Project # KCKSRE1561262842

Your application for interconnection has been approved. Please notify Evergy by logging into the portal, requesting the post inspection and uploading the system photos and customer signature pages, when the installation of your solar system is completed and ready for inspection. REMINDER- If a post inspection is requested and flawed resulting in a requirement to make a return trip to the property the customer will be charged a \$81 return trip fee. Please note you have 12 months from application approval date to complete your project, finish a field inspection and have a new meter installed. Meters will not be exchanged or set until any necessary city or county inspections have passed.
