Re: Permit # <sup>COM</sup> ~~PRRES~~20114587  
New Cell Tower  
900 SW Blue Pkwy  
Lee's Summit, Missouri

Dear Ms. Beeler:

We received your April 4, 2012 letter informing us your company is no longer under contract to complete the scope of your permit. However the conditions of your permit hold your company responsible to perform on the permit unless/until some other qualified party requests to become the new applicant/permit holder. In the meantime any work performed without our inspection and covered or made inaccessible by subsequent work will become your situation issue to resolve. We suggest you contact the parties involved and ensure they contact our office immediately to assume your obligations under the permit. Left unresolved the matter would ultimately be referred to the City Prosecutor for action in court.

Please contact me at 816-969-1212 if I can provide further clarification.

Sincerely,

John A. Borns  
Building Inspector

City Codes Administration

Subject: Permit # PRECOM20114587

Address: 900 SW Blue Pkwy

We are informing the city that McGilton Construction Company Inc. is no longer working this project as the general contractor. The owner, Colt & Garrett, at their request will finish all construction. Which includes fencing, landscaping, final grade, seed/straw and sod.

All work completed by McGilton Construction has been inspected by the City of Lee's Summit and Terracon (Special Inspection)
