Certificate of Substantial Completion

Monday, November 12, 2012

**RE: St. Lukes East Rockhill & Douglas Parking Lot
PRPWFC20115390
PWorks Commercial**

This Certificate of Substantial Completion for the infrastructure associated with the above referenced project satisfies the Public Works Portion of the requirements for a building permit. The infrastructure for this subdivision has been installed and tested and can be used for its intended purpose. Incomplete items will be indicated in a separate punch list letter. The Punch List will indicate corrections and documentation that must be completed in order to receive a Certificate of Final Acceptance from Public Works. A ninety (90) calendar day time period commences from the above date of issuance for completion and submittal to the City of all required final acceptance items as directed in the City of Lee's Summit's, Design and Construction Manual, Ordinance 5813. After all requirements have been met, a Certificate of Final Acceptance will be issued. If the Certificate of Final Acceptance is not obtained within the specified time period, issuance of building permits shall be suspended until the requirements are met.

Erosion and Sediment Control

The 90 days that is allowed for completion of final acceptance items is not allowed for erosion and sediment control. Erosion and sediment control must be established and pass inspection prior to substantial completion, and remain in place and maintained until the entire site is built-out. The Developer is responsible for maintenance of erosion and sediment control. Additional erosion and sediment control (above and beyond what is on an approved plan) can be required by the City. The following regulations apply. *All land disturbances, including residential and commercial development projects, shall provide adequate erosion control to protect public streets, public storm sewer systems, adjacent property, streams and surface waters from being polluted with sediment and silt* (Section 1000 – City of Lee's Summit's Design and Construction Manual (Ordinance 5813)).

By signing this letter, the developer acknowledges the receipt and accepts the terms of this Certificate of Substantial Completion.
