**Subject:** RE: Information on UST at Stanley Site

I talked to Jim Eden and he is good to go. He doesn't know of anything else that the City would need. I will forward this information on to the developer.

**Subject:** Information on UST at Stanley Site

I heard from Anastasia Welch with Aquaterra late Friday concerning the tank. I had asked her to provide their understanding of the regulations. She confirmed with Laura Luther, MDNR UST program, that a heating oil tank is exempt from all MDNR regulation and that anything we have done or want to do is totally voluntary. The tank does not need to be removed and we don't even have to take additional soil samples under MDNR regs. The tank is fine as-is as far as MDNR is concerned.
