Building Plan Review

Reviewed By: Michael Weisenborn

Approved with Conditions

8. I am unable to locate backflow protection for the water supplies on the pedicure and shampoo stations.

Action required - To be verified on inspection.

Fire Plan Review **Reviewed By: Brian Austerman** Approved

1. 907.12 Duct smoke detectors.

Duct smoke detectors shall be connected to the building's fire alarm control panel when a fire alarm system is provided. Activation of a duct smoke detector shall initiate a visible and audible supervisory signal at a constantly attended location. Duct smoke detectors shall not be used as a substitute for required open area detection.

Action Required: Duct detection is shown, activation of which shall initiate a rtu shutdown and transmit a supervisory alarm to the panel. Verified at alarm testing

2. 2006 IFC 901.2- Construction documents. The fire code official shall have the authority to require construction documents and calculations for all fire protection systems and to require permits be issued for the installation, rehabilitation or modification of any fire protection system. Construction documents for fire protection systems shall be submitted for review and approval prior to system installation.

Action Required: Provide sprinkler plans for approval for any modifications to the existing system

- 3. The waterflow valve needs to be labeled N109, verified at final inspection
- 4. 2006 IFC 907.1.1- Construction documents. Construction documents for fire alarm systems shall be submitted for review and approval prior to system installation. Construction documents shall include, but not be limited to, all of the following: 1. A floor plan which indicates the use of all rooms. 2. Locations of alarm-initiating and notification appliances. 3. Alarm control and trouble signaling equipment. 4. Annunciation. 5. Power connection. 6. Battery calculations. 7. Conductor type and sizes. 8. Voltage drop calculations. 9. Manufacturers, model numbers and listing information for equipment, devices and materials. 10. Details of ceiling height and construction. 11. The interface of fire safety control functions.

Action Required: Provide alarm plans for approval for any alarm system modifications

5. 2006 IFC 906.2 - General requirements. Portable fire extinguishers shall be selected, installed and maintained in accordance with this section and NFPA 10.

Action Required: A 10 lb extinguisher is shown on plans, one 5lb (2A10B:C) is required for every 3000 sq/ft. Verified at inspection
