Subject: SLELS Building "F" 5th floor: glazing at hazardous locations

Don,
Any glass purported to be laminated safety glass but not so etched must be inspected on-edge. Please tell me how is best for you to have this occur.

Re: SLEH-Gastro

Steven,

I am writing to you regarding "Glass & Glazing" on the above noted project. I hereby certify all glass required to meet ANSI Z97-1 Safety Glazing codes where provided in "All" locations.

Should any further questions arise please contact me at my office or on my cell phone at 816.918.3886.

Sincerely,

William P. Carter
