Project Parcel #:

This Certificate of Substantial Completion for the infrastructure associated with the above referenced project satisfies the Public Works portion of the requirements for a building permit. The infrastructure for this subdivision has been installed and tested and can be used for its intended purpose. Incomplete items will be indicated in a separate punch list letter. The Punch List will indicate corrections and documentation that must be completed in order to receive a Certificate of Final Acceptance from Public Works. A ninety (90) calendar day time period commences from the above date of issuance for completion and submittal to the City of all required final acceptance items as directed in the City of Lee's Summit's, Design and Construction Manual, Ordinance 5813. After all requirements have been met, a Certificate of Final Acceptance will be issued. If the Certificate of Final Acceptance is not obtained within the specified time period, issuance of building permits shall be suspended until the requirements are met.

Erosion and Sediment Control

Erosion and sediment control must be established/installed according to Lee's Summit's Design and Construction Manual Sections 1000, 2150, and 5100. Erosion and sediment control must be established/installed immediately and maintained continuously - the 90 day completion period which may apply to other punch list items does not relate to erosion and sediment control.

Public Infrastructure Quantity

Sanitary Sewer	1,256 linear feet
Stormwater	2,408 linear feet
Street	14,942 linear feet
Water	3,787 linear feet

Building permits will be frozen on September 16, 2015 if all items on the punch list are not completed. If you have any questions about the above or any items listed on the Punch List please contact Glenn Martin Public Works Inspector, at (816) 969-1836

By signing this letter, the developer acknowledges the receipt and accepts the terms of this Certificate of Substantial Completion.
