

To, Whom it may concern

I am writing this letter in regards to the two Fan's on the ceiling located in the waxing room and the employee room the reason we installed that extra fan in the room is because of the employee room next to it and it's an open room next to each other we do not want any food smell to go into the room while the employee is using microwave or food in the employee room next to the waxing room.

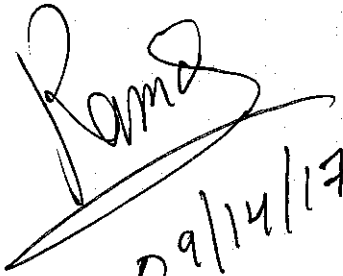

If you have any question's regarding this statement please contact us at :
