

PUBLIC WORKS ENGINEERING DIVISION

Inspection Summary

Permit #: PRPWFR20171420,
CREEKSIDE AT RAINTREE

Address:

This work has been inspected and the inspection results noted below. Please call for re-inspection once all corrective actions have been completed. Do not cover any work until approved.

Inspection Item:

Inspection:	Inspector:	Outcome:	Date:
DEI-Water Line - Coliform Test 1	Brice Lawson	Passed	Monday, June 25, 2018
Informational 1	Brice Lawson 06/18/2018 3:13 PM		

Evan Dolan with the water dept. requested that one set of bacterial samples be taken from the newly isolated water main in this subdivision. This was due to the line not being pressurized after all the required bacterial samples had passed.

Arron with Schleif Construction took 3 bacterial samples from the construction taps located in three different areas in the subdivision. One is near the end of the main in the south cul de sac, one is near the end of water line 1-1 and one is just north of STA. 4+78.70. I delivered the water samples to Blue Valley Lab at about 12:00pm.

Informational
2 Brice Lawson 06/25/2018 9:22 AM
The bacterial tests passed.
