

Todd Holzman, Allegiant Service Group, Inc. met with John Borns on June 2018 to discuss extension of electrical gutter that will allow for additional electrical services to be installed for demising of former furniture store tenant space into smaller lease spaces at Summit Fair Shopping Center.

Mr. Borns indicated gutter extension and services are acceptable to proceed as discussed. Also met with Phil Ingram, General Design Tech with KCP&L and approved as discussed.

New 200A KCP&L metered service area for new Bundt Cake tenant

Extend existing electrical gutter to this wall to allow for additional KCP&L electrical services.

Existing overhead door to be removed. Construct wall to match facade and matching cinder block construction.

This work completed under All About Bundt Cakes permit

#KCPM201802297

This service bank controlled by 800A main distribution panel that turns off power to all services with one throw

910 W. Blue Key
