Inspection Item:

Inspection:	Inspector:	Outcome:	Date:
DE - Site Visit	Steve Robbins	Failed	Wednesday, April 03, 2019

Corrective Action Required

- 1 I spoke with Casey Williams from Fogel Anderson and let him know that they needed to stop work and remove all the rip rap that was installed as a crossing in the Little Blue River. As per an application that was filled out there is not suppose to be any work in the Flood way at this time until all permits have been approved. We have also requested that the flood way be staked out and marked in some way so we know that work is not being done in it. The contractor said he was going to keep working and try to get things figure out in the next few days. I spoke with Dan and he called Casey and he has now agreed to remove crossing and he is having a surveyor come out to stake the flood way. Steve Robbins
