Marc and Ginny,

I just confirmed with Ron the water main has been killed at the point of the new connection. The abandoned water main will need to be removed as part of the demolition permit for 500 NW Pryor Rd. if you have completed the application you can fax them to 816-969-1201 or you can email the completed app to me. This way the permits will be ready when you come in to pick them up and you wont have to wait as long. The permit fee will be \$60.00. Let me know if you have any questions.

Marc,

It's my understanding from Ron that the public water main is required to be killed prior to issuance of the demo permits. I have copied Ron in to confirm.

Mike, let me know if you have everything you need and ill have Ginny come down and get the permits.

Thanks,

Marc Cook
