I Jim Bumgarner A licenced Architect in Missouri inspected the above stucco installation that was in progress of being finalized with the final "color coat "to be installed over the existing stucco basecoat . The stucco system consist of Tyvek building wrap, metal lath , base coat and color coat, applied over building sheathing in accordance with manufactures installation requirements. The stucco system was ready to be finished with the "color coat" installation as per my inspection.

Sincerely Yours :

Jim Bumgarner Architect
