2nd Floor Truss Layout

Scale: 3/16" = 1'

THIS IS A TRUSS PLACEMENT DIAGRAM ONLY. These trusses are designed as individual building components to be incorporated into the building design at the specification of the building designer. See individual design sheets for each truss design identified on the placement drawing. The building designer is responsible for temporary and permanent bracing of the entire structure. The building designer should review the placement drawing and all design sheets carefully and report any discrepancies to Wheeler Lumber before fabrication. It is the building designer's responsibility to provide temporary and permanent bracing for the trusses and the structure. For general guidance regarding bracing, consult "Bracing of wood trusses" available from the Truss Plate Institute, 583 D'Onofrio Drive; Madison, WI 53719.
