Lee's Summit, MO 64063

Re: Project Name: Lee's Summit Middle School #4
DLR Group Project No.: 13-20102-00

Dear Mr. Weisenborn:

This letter is to confirm that the licensed professional listed herein has performed an independent review of the tornado shelter portion of Contract Documents for the Lee's Summit Middle School No. 4 project to verify compliance with the 2014 ICC-500 Guidelines.

Regarding Chapter 7, "Essential Features and Accessories," requirements related to Emergency Lighting, the review was performed by Troy D. Thompson, PE.

It is my opinion, for the referenced requirements, that the tornado shelter portion of the Contract Documents comply with the design requirements of the ICC-500 guidelines.

Sincerely,
DLR Group

Troy D. Thompson, PE
Senior Engineer Leader
Principal
