Submittal Requirements:

- 1. All applications shall be accompanied by written approval of the property owner or landlord (see page 3 of this application).
- 2. Design, graphic, or drawing of the proposed sign with dimensions.
- 3. Site plan showing the location of the proposed monument, temporary, or other detached sign.

Permits are required for the following sign types:

Wall Signs: The following information shall be submitted:

- Building elevation(s) showing: building width, building height, façade area, and the exact sign location(s).
- In some situations, a site plan indicating the building, parking areas and property lines may be necessary.
- Sign specifications showing: exact copy, size, length, height, area, materials, color, lighting and type.
- All information submitted shall be to scale and include dimensions and area of sign.

<u>Detached Signs (monument and directional):</u> The following information shall be submitted:

- Site plan indicating the building, parking areas and property lines as well as the proposed sign with dimensions to all property lines.
- Sign specifications showing: exact copy, size, length, height, area, materials, color, lighting and type.
- All information submitted shall be to scale and include dimensions and area of sign.
- A minimum of 25 square feet of landscaped area, <u>exclusive</u> of the sign structure area, shall be located at the base of each freestanding monument sign. Landscaping shall be shown on accompanying site plan to scale.

Temporary Signs: The following information shall be submitted:

- Building elevation(s) showing: building width, building height, façade area, and the exact sign location(s).
- Site plan indicating the building, parking areas and property lines as well as the proposed sign with dimensions to all property lines.
- Sign specifications showing: exact copy, size, length, height, area, materials, color, lighting and type.
- All information submitted shall be to scale and include dimensions and area of sign.

Other Requirements:

• All signs shall be designed and constructed to withstand wind pressure of not less than 25 pounds per square foot.
