Retaining walls (for multiple walls on the plot plan clarify which walls are being inspected in the comments)					

□ Installation per approved plans

## Comments:

Forms and installation of reinforcement are installed per plan specifications. Footings are approved for concrete. Deck/porch/balcony footings are approved for concrete. Ufer rod is located near southwest (rear right) corner of garage foundation wall.

This is to certify that I, or qualified individuals working under my direction, inspected and/ or tested the above checked items in accordance with the applicable City approved building and site plans, codes and engineering details. The work is complete and to the best of my knowledge was found to be in substantial compliance with the approved plans and specifications.
