Mr. Steenson,

The City of Lee's Summit will be able to approve your building permit conditionally based on the BZA approval of the deck variance you are requesting. Please sign this correspondence as your acknowledgement of the conditional approval. Should the BZA deny the variance request for the uncovered deck setback, the plot plan shall be revised so the uncovered deck is brought into compliance with the 25' rear yard setback.

Thank you,

Andrea Sessler  
Permit Technician  
City of Lee's Summit
