comments)

□ Installation per approved plans

Comments:

Forms and installation of reinforcement are installed per plan specifications. Footings rest on drilled piers per Everstead specifications. Garage columns (2) and deck/porch/balcony columns (3) are approved for concrete. Foundation is approved for concrete. Ufer rod is located under front stoop.

This is to certify that I, or qualified individuals working under my direction, inspected and/ or tested the above checked items in accordance with the applicable City approved building and site plans, codes and engineering details. The work is complete and to the best of my knowledge was found to be in substantial compliance with the approved plans and specifications.
