**RE: Woods Chapel Church of God – Punch List**

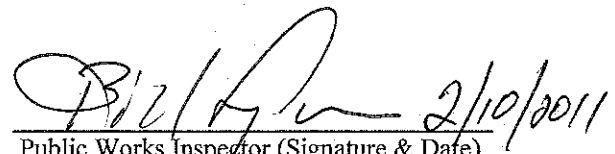

The stated punch list indicates corrections and documentation that must be completed in order to receive a Certificate of Final Acceptance from Public Works. Public Works will not authorize a Certificate of Occupancy until all items are completed. There is one outstanding punch list item that is needed before "Final Acceptance" is issued. The needed item is as follows:

Erosion Control Devices – Seeding and Mulching is needed on the denuded ground west of the church building. Per the January 7, 2011 conversation with Harlan Bartel, contact person for the Woods Chapel Church of God, advised that the denuded ground would have seed and mulch placed as soon as the snow melts. There will be a "Follow-Up" inspection by Bart Reese, Public Works Erosion Control Inspector, if the identified area needs additional re – vegetation.

If you have any questions about the above items please contact <Bill Lyon> Public Works Inspector, at (816) 969 – 1829, [Bill.Lyon@cityofls.net](mailto:Bill.Lyon@cityofls.net)

Sincerely,
