Corrective Action Required

Site Visit - I pulled up onsite and the sidewalk panel was just poured. I spoke with the worker onsite and he used bag concrete. I let him know we do not except that. I spoke with Junior and let him know it would need to be removed. I stated they could leave it in for the time being so the home builder can close on the home as Jim with SAB was needing the panel to be replaced before he put in sod. Jim with SAB stated he could do the panel and charge the contractor, I let Junior know that is an option and gave him a number if it helps but that would be between them to work out.
