June 23, 2022

To Whom It May Concern;

AJ,

In regard to the C3 gable truss being cut and modified at Lot 92 The Reserve at Stoney Creek. The gable, being replaced in function by field framing, no longer serves a structural purpose in the integrity of the house. Since it no longer serves a structural purpose, it may be cut, modified, and/or used as framing material.

Please let me know if you need any additional information on this matter.

Best Regards,

Charles Haspels
