Lee's Summit, MO 64082  
Permit #2021-3952

To Whom it May Concern:

**Sewer Inspection:**

After my conversation today with Ethan of Summit Homes and Mitch with the City of Lee's Summit, I was asked to type the following letter to your attention in regard to the plumbing sewer installation performed at 3100 SW Arbortree Dr Lee's Summit, MO. RMS performed the installation to plan specification and to 2018 International Code at the above referenced address on October 19, 2021. The installation consisted of proper slope and was installed using 4" SDR21 pipe embedded in gravel.

Sincerely,

  
Brandon Narron, President  
Reliable Mechanical Services, Inc.
