Field modifications

Dear Mr. Elder,

We are providing herewith statement regarding the field modifications to the residential construction at the above referenced plan number. At the rear wall of the breakfast and master bedroom, the original plan specifies portal frame over raised wood floor. The framed wall sections on each side of the window units shall be considered as continuously sheathed wood structural panels. Method CS-WSP may be substituted with no additional modifications required. If there are any questions regarding this analysis, please contact our Offices.

Very Truly Yours,

R.E.O. ENGINEERING, P.C.
