|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <ul> <li>8-25-22 AN. Randy began to dig up and expose the manhole tie in on the detail car property</li> <li>8-26-22 AN. Man hole has been cored in to . Pic attached</li> <li>8-29-22 AN. Crew installed about 5 sticks of pipe today .</li> <li>8-31-22 AN. Crew is continuing to install sewer pipe</li> <li>9-7-22 AN. There is some concern about the straightness of the sewer main between the existing MH and S-1, S-2. The pipe has some zig zags or bows in the main. ES and i shined a light in the main and could not see the light between MH's also i had Randy with Tasco use their pipe laser and we also could not get it to shine through .</li> </ul> |                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| I recommended that they get a third party to inspect and also do a mandrel<br>test for the 10" main. We did do a mandrel test witch requires a 9.21 and they<br>used a 9.24 mandrel. The mandrel went through with no problem<br>we will have to wait until they are 100% done and the 30 day waiting period<br>to have WU come out and inspect and determine if they will except the main                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
