Corrective Action Required

Site Visit - The workers were onsite, they are not working in the road but have a lane closed sign up. I stopped and spoke with one of the workers and let them know they would need to replace that sign with a different sign to not confuse drivers since they are not closing a lane of traffic for the work they are doing. They said they would change it out. They are hugging the shoulder and have cones on the shoulder of the road. Monitoring.
