Search Products

- Adjustable mounting hardware accommodates virtually any ladder rung size or spacing.
- Telescoping design is spring balanced for ease of operation.
- Automatically locks in the fully raised position to provide the user with a firm and steady hand-hold for safer egress
- Handy release lever allows the post to be easily lowered to its retracted position.
- Available in four levels of corrosion resistance to provide many years of trouble free, dependable service.

Specifications

Install on fixed ladder(s) below hatch cover(s), LadderUP® safety post Model ___ as manufactured by The Bilco Company. Device shall be (refer to chart for material/finish* of model specified). It shall be designed with a telescoping tubular section that locks automatically when fully extended. Upward and downward movement shall be controlled by a stainless steel spring balancing mechanism. Unit shall be completely assembled with fasteners for securing to the ladder rungs in accordance with the manufacturer's instructions.

* If installation is to be in corrosive atmosphere, specify Model LU-2, LU-3 or LU-4 as conditions warrant.

Also used on fixed ladders under floor access doors and manhole covers
