To Whom it may concern,

Permit No: PRRES20231517

Per my phone discussion with Hector Soto Jr. (plan reviewer) in regards to below plan condition. We acknowledge this condition and would like to defer this until one of our inspections as buyer has not made color selections for the build.

2. COLORS. The design standards approved by ordinance for the subject development require that the front and two sides of the home provide trim around window and door elements to be painted a color that is different than the main body color of the house. The elevations do not appear to label any exterior material colors. Label all proposed exterior material colors for staff to review for design standard compliance.

Sincerely and Thanks

A handwritten signature in blue ink, appearing to read "J Walker", is written over the printed name.
