Categories: Colbern Road (STP 3301)

This looks good. Please have the contractor apply for a traffic control permit and make sure that Sarah is kept in the loop for notifications.

Subject: FW: [EXTERNAL] full closure Colbern Rd

Erin/Susan,

MoDOT has requested an approval from LS regarding the proposed closure of Colbern Road overnight for 1 Friday night only and then one way traffic during Saturday to complete the work.

Erin, I believe after talking with you last week that you would be okay with this one Friday night closure (8pm-8am) and then one lane each way during Saturday until the road crossing is complete.

If this is acceptable could I get an approval to give to the contractor? I would then work at setting up the date and notifications.

Thank you for your help!

Steve

CAUTION! This is an **EXTERNAL** email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I will need to get approval from Lee's Summit, to show MoDOT. I resubmitted the plan with the detour late last week.

Brian,
Our office has received your permit application request to install a storm line across Colbern Rd. requiring a Friday night 8p to Saturday 8a full closure and then keep Colbern Rd to 1 lane EB and WB until Saturday 8p. This will occur 1 weekend in the month of March.
Please respond to this email and attach your TCP for our review. Colbern Road is a City of Lee's Summit owned and maintained segment of roadway, we will require notification from them to you authorizing the closure.
I've attached the permit application for your signature.
