THIS IS A TRUSS PLACEMENT DIAGRAM ONLY. These trusses are designed as individual building components to be incorporated into the building design at the specification of the building designer. See individual design sheets for each truss design identified on the placement drawing. The building designer is responsible for temporary and permanent bracing of the trusses during construction. The building designer is responsible for providing adequate bracing for the walls and columns. The responsibility of the building designer for general guidance regarding bracing of wood trusses is available from the Truss Plate Institute, 583 Dornifino Drive, Madison, WI 53179.
