THIS IS A TRUSS PLACEMENT DIAGRAM ONLY. These trusses are designed as individual building components to be incorporated into the building design at the specification of the building designer. See individual design sheets for each building design for details of the truss design and the design of the roof and floor system and for the overall structure. The design of the truss support structure (including loadings, beams, columns, and walls, and columns) is the responsibility of the building designer. For general guidance regarding bracing, consult "Bracing of wood trusses" available from the Truss Plate Institute, 583 DuPont Drive, Madison, WI 53179.
