Site Visit - I stopped and spoke with Manny the Mears foremen over this project. He said they would be starting on the deep section where they would 18ft plus tomorrow. I asked him again for the bore logs for depths and location and he said Spire would be who to get with for that. He stated they would be about 5ft where they have had to tie in the line but everywhere else has been around 6ft feet. I will continue to monitor.
