DLR Group Project No.: 13-23128-00  
**PERMIT Application Number: PRCOM20240778**  
**Application Type: Permit Application**

Dear Scott and Joe,

Thank you for all the support throughout the FDP process.

As per email communication this afternoon, we identified there were a few sheets that had errors in the room numbers and names in the documents uploaded for Final Permit on 07/22/2024. To avoid any confusion during the permitting process, we are uploading a **new set dated 07/25/24** to the permit portal. The following are the only sheets that have been updated – CP0.1, CP1.1 CP1.2 and A1.2A to reflect the correct room names and numbers.

We left all the other sheets with previous clouds on and dated respectively.

Please let us know if there are any questions. We apologize for any inconvenience this may have caused.

Sincerely,  
Ishita Banerjii  
Project Manager | Senior Associate
