Client:  
Saint Luke's Health System  
901 E 104th St  
Kansas City, MO 64131

Project:  
220475  
St Luke's East ASC Expansion  
100 NE St Lukes Blvd  
Lee's Summit, MO 64086

Date: 04/10/2024

Inspector: Chase Behler

OBSERVATIONS

Location: Air handler room

Report Narrative:

Met with Roy from KBuilding, Spray applied fire proofing material testing - retrieved (2) destructive test samples for density testing, results to follow. All Thickness and adhesion/cohesion testing exceeded specified minimum allowance for each member tested.

Discrepancy: No

Reviewed by: Jeff Marquez

OBSERVATIONS

Location: Air handler fireproofing

Report Narrative:

Spray applied fire proofing material still too wet for testing, ventilation could be a potential issue. Will reach back out in a couple days to see where we are at.

Discrepancy: No

## OBSERVATIONS

Location: Saint Luke's expansion area - Air handler 8 (NE corner)

Report Narrative:

Spray-applied fireproofing materials inspection and thickness testing. Contractor began spraying (Cafco 300HS) on columns. All members being treated are clean, free of any rust or debris, and ready to be sprayed. Wet Thickness tests on lower 8' of NE corner column exceeded minimum thickness requirements. Will be back after sfrm is dry and ready for density and adhesion/cohesion destructive testing.

Discrepancy: No
