Guys,
See email below this is what we got from the city of Lee's Summit for the flow test at the site.

Thank you,

Brad Lenheim

Subject: RE: Lee's Summit Flow Test

I believe hydrant 1 is the flow and hydrant 2 is the residual. Alec, please see the below question and confirm?

Thank you,
Ariela Shannon

Ok we can do that. Do you have a preference for which hydrant is flowed and which is measured for pressure drop only?

Good morning,

Perfect, thank you. Yes that second option, the single "double flow test."

Thank you,
Ariela Shannon

Good morning, we can perform this test this week. Are you requesting two separate flow tests or a single "double flow test" where one hydrant is tested for pressure drop?

Good morning,

I'm just following up on this flow test request. Would you please update me on the status?

Thank you,

Good morning,

Thank you for speaking with me about this hydrant flow test. This is the address for the work being performed and the hydrants we're requesting to be flowed are on the map. Please let me know if you have any other questions.
