Transmittal Letter

Plan review response for Hook Farms, Lot 125. 2606 SW Tracker Ln.

- I am resubmitting engineered plans for permit # PRRES20245058. I had a conflicting note removed before it could be problematic. Before, there was a note calling for 2x6's when 2x4's are fine per code.
 - Please see the engineer note about bedroom 3 on the lower-level plans.
