The truss designs for the referenced project were reviewed by Ammar Qashshu, PE and determined to be in full compliance with all applicable building codes and engineering standards. This includes adherence to the International Residential Code (IRC) 2018, specifically Section R802.7, and the Truss Plate Institute (TPI) 2014 National Design Standard for Metal Plate Connected Wood Truss Construction. The review ensured the safety and structural integrity of the proposed truss system.

Thank you,
Ammar Qashshu, PE
