Re: Discovery Animal Hospital
1901 NE Trails Edge Blvd. – Lee’s Summit, MO 64086
Permit # PRCOM20243864

Mr. Frogge,

We are submitting revised plans for this project with “Revision 2” changes requested by the owner. All of the changes are clouded and marked with a delta R2. The Revision 2 date is 01/31/2025 on the revised plans.

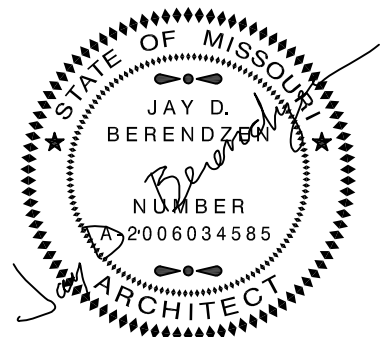

A summary of the changes:

- 1) The Entry Vestibule and Reception Area layout has changed. Due to this layout change, the optimal site layout lead to the building being “mirrored”.
- 2) The building footprint, general scope and code analysis has not changed.
- 3) All building plans including architectural, structural and mep plans have been revised to reflect the changes.
- 4) We have also coordinated with the civil engineer and understand that the civil plans have also been revised accordingly and re-submitted to the City.

Please let us know if you have any questions or need any additional information.

Sincerely,

Jay D. Berendzen - Architect
