

# LEE'S SUMMIT MISSOURI

---

Date: May 12, 2025  
To: Development Services  
From: Jeremy Young, Utility System Supervisor  
Subject: Water/Sewer Abandonment – 1300 & 1302 SW Market St.

On May 08, 2025, Water Operations performed the Water service line abandonment for the addresses of 1300 & 1302 SW Market St. This abandonment was in response to the customer performing a demolition of the structure on the property.

The sewer service has been temporarily abandoned at the back of the curb as agreed upon between Water Utilities and the Oldham Village Developer (David Olson). The service lateral will attempt to be reused for the future structure, or if unable to do so it is required be properly abandoned at the main before any C of O is issued for that site.

Please let me know if you have any questions.

Jeremy Young  
Assistant Director of Water Operations
