Client PO:

Kaw Valley Engineering (KVE) was on site to observe a proofroll test performed by the Contractor.

Location: W. End of Site, just S. of Job trailer, and site of future Clubhouse for Evren Apartments.

The proofroll was performed with: Loaded 33,000lb water truck

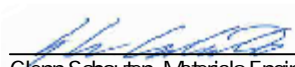

Our representative observed a proofroll of the material at the location listed above.

Based on our observations as described above, the materials and procedures at the time of our site visit were in general conformance with the construction documents.

On-site personnel were verbally informed of the observations and test results.
