

LEE'S SUMMIT MISSOURI

Date: June 25, 2025
To: Development Services
From: Jeremy Young, Utility System Supervisor
Subject: Water/Sewer Abandonment – 1306 SW Market St.

On June 25, 2025, Water Operations performed a temporary water service line abandonment for the address of 1306 SW Market St, as agreed upon between Water Utilities and the Oldham Village Developer (David Olson). The water service line is required be properly abandoned at the main before any C of O is issued for that site.

The sewer service has been temporarily abandoned at the back of the curb as agreed upon between Water Utilities and the Oldham Village Developer (David Olson). The service lateral will attempt to be reused for the future structure, or if unable to do so it is required be properly abandoned at the main before any C of O is issued for that site.

This abandonment was in response to the customer performing a demolition of the structure on the property.

Please let me know if you have any questions.

Jeremy Young
Assistant Director of Water Operations
