

<u>Notes:</u>

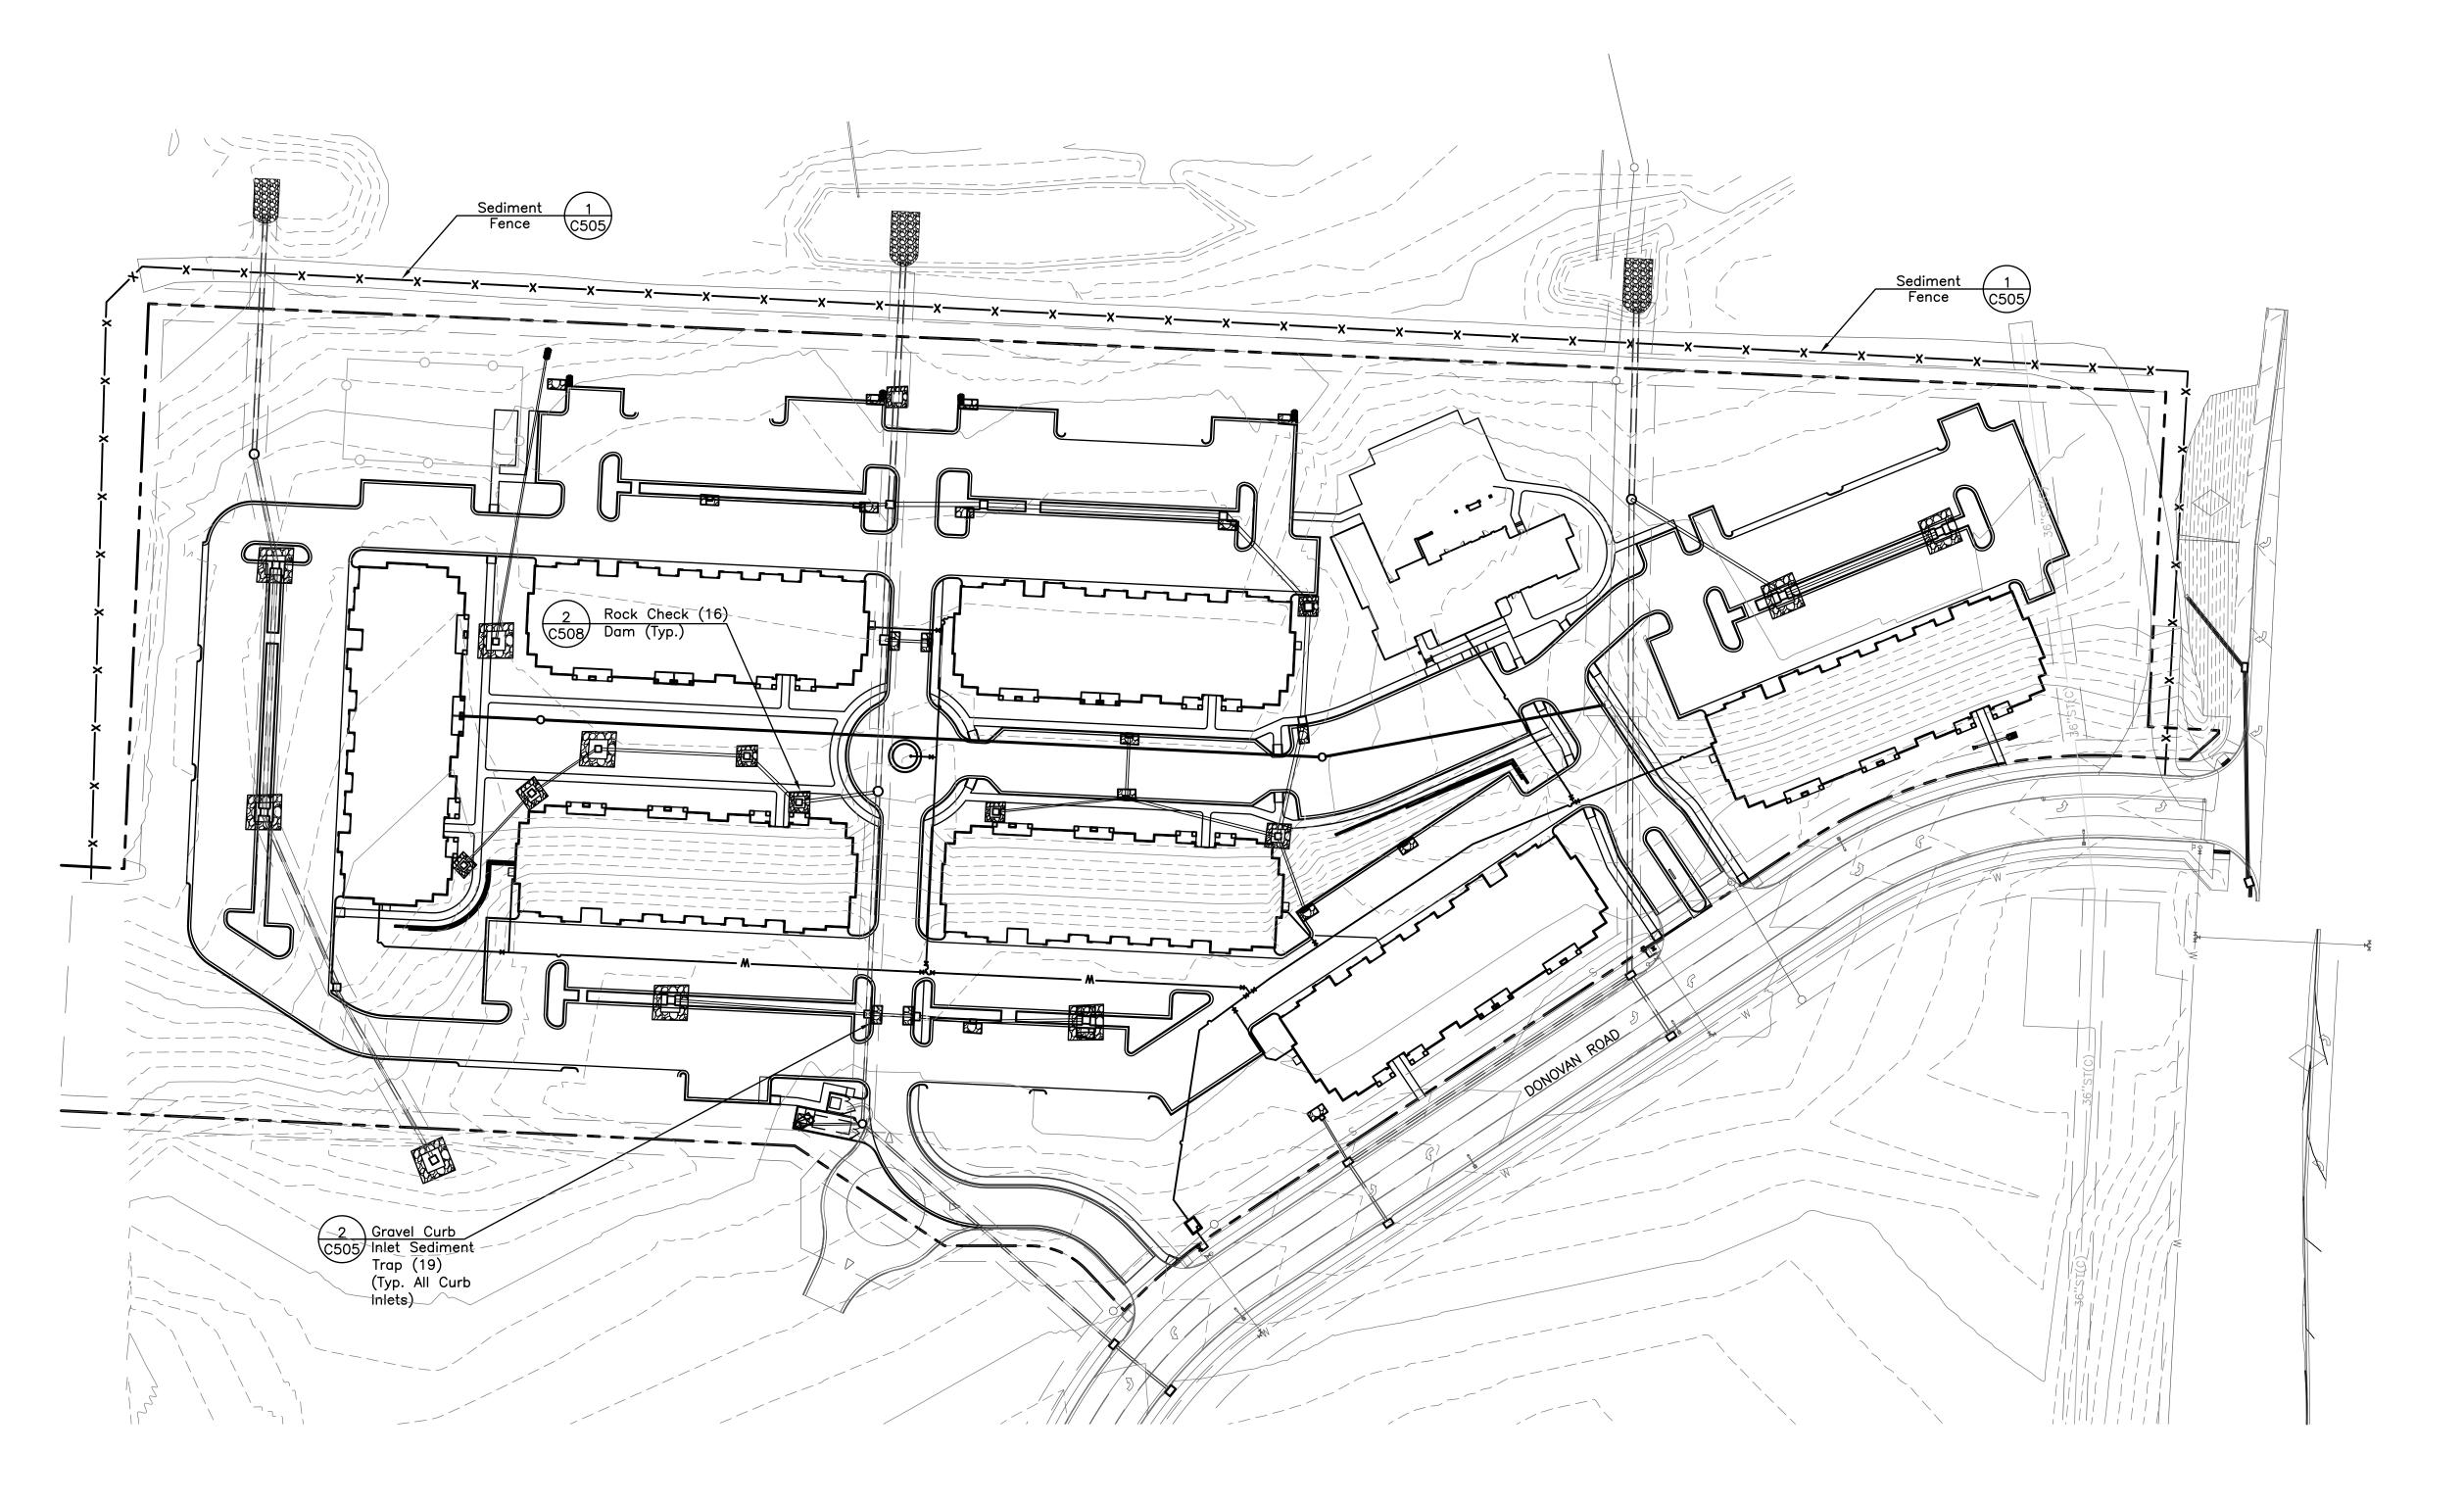

- 1. Erosion control devices shown are schematic in nature. Actual locations may change as portions of the Work are undertaken and completed.
- MDNR Land Disturbance Permit #MOXXXXXXXX.
 In order to terminate a state operating permit, the Missouri Department of Natural Resources (MDNR) requires that the permittee submit a completed Form H (included with the approved permit) to the MDNR.

 A permit is eligible for termination when either perennial vegetation, pavement, buildings, or structures using permanent materials cover all areas that have been disturbed. Vegetative cover shall be at least 70% of fully established plant density over 100% of the disturbed area. A copy of Form H should be submitted to the City at which time the City will remove the project from its Inspection schedule.
- 4. Land disturbance sites should be inspected on a regular schedule and within a reasonable time period (not to exceed 48 hours) following heavy rains. Regularly scheduled inspections shall be at a minimum of once per week. Any deficiencies shall be noted in a weekly report of the inspection and corrected within seven calendar days of the report.
- 5. Contours reflect final grading. Temporary grading may be required for temporary berms, rock ditch checks, and sediment traps.
- 6. Remove temporary rock after vegetation is established on site.
- Approximate acreage disturbed is 13.7 acres. 8. Compost/mulch berm (3\C505) can be substituted
- for sediment fences (1\C505)
- 9. Contractor shall provide temporary seed and straw in approximate limits where site has been disturbed and
- no work is to occur for a period of 2 weeks.

 10. Site erosion & sediment control shall comply with APWA 2150 & 5100.
