**Electronic Plans for Resubmittal**

---

Beginning Monday, May 23, 2016, all Planning application and development engineering plan resubmittals shall include an electronic copy of the documents as well as the required number of paper copies. Electronic copies will not be required for initial application submittals at this time as the plans are subject to change.

Electronic copies shall be provided on CD in the following formats

- Plats – All plats shall be provided in Tagged Image Format File (TIFF) Group 4 compression.
- Engineered Civil Plans – All engineered civil plans shall be provided in Tagged Image Format File (TIFF) Group 4 compression. All sheets shall be individually saved and titled with the sheet title.
- Architectural and other plan drawings – Architectural and other plan drawings, such as site electrical and landscaping, shall be provided in Portable Document Format (PDF).
- Studies – Studies, such as stormwater and traffic, shall be provided in Portable Document Format (PDF).
- It is requested that each plan sheet be a maximum of 2MB.

Please contact Staff with any questions or concerns.

**Excise Tax**

On April 1, 1998, an excise tax on new development for road construction went into effect. This tax is levied based on the type of development and trips generated. If you require additional information about this development cost,

as well as other permit costs and related fees, please contact the Development Services Department at (816) 969-1200.

---

**Review Status:**

Revisions Required: One or more departments have unresolved issues regarding this development application. See comments below to determine the required revisions. Resubmit six (6) full size sets (no larger than 24"x36") folded to 8-½"x11", and one (1) digital copy following the electronic plan submittal guides as stated above of the revised drawings to the Development Services Department. Revised plans will be reviewed within five (5) business days of the resubmittal.

**Required Corrections:**

<b>Planning Review</b>	Hector Soto Jr. (816) 969-1238	Planning Division Manager Hector.Soto@cityofls.net	Corrections
------------------------	-----------------------------------	---	-------------

---

1. MECHANICAL EQUIPMENT. No mechanical equipment is shown on the building elevations or site plan as part of the final development plan submittal. At the time mechanical equipment is installed, screening shall be required to be provided in accordance with Section 7.180.E and F of the UDO.

This comment is for informational purposes and does not require any action at this time.

2. LANDSCAPE PLAN. Revise the size of the proposed Eastern White Pine. The trees are listed as 3" caliper. To meet minimum requirements, the trees shall be a minimum 8' in height at the time of planting.

<b>Engineering Review</b>	Sue Pyles (816) 969-1245	Staff Engineer Sue.Pyles@cityofls.net	Corrections
---------------------------	-----------------------------	--	-------------

---

1. APWA Erosion & Sediment Control standard details must be included in the plan set, not just referenced.

2. Label all ADA accessible sidewalk ramp slopes and include detectable warnings for the Type B sidewalk ramp.

3. Include notes for sawcutting and removal of any existing curb & gutter and asphalt required for driveway and curb inlet construction.

4. Show riprap at the end section throughout the plan set.

5. Include a drainage map in the stormwater study. Revise the Scenarios for clarity. The scenario included in the previous submittal was much easier to read. Correlate the labels on the drainage map in the plan set with the drainage map and scenarios in the report.

<b>Fire Review</b>	Jim Eden (816) 969-1303	Assistant Chief Jim.Eden@cityofls.net	Corrections
--------------------	----------------------------	--	-------------

---

1. All issues pertaining to life safety and property protection from the hazards of fire, explosion or dangerous conditions in new and existing buildings, structures and premises, and to the safety to fire fighters and emergency responders during emergency operations, shall be in accordance with the 2012 International Fire Code .

2. IFC 503.1.1 -Approved fire apparatus access roads shall be provided for every facility, building or portion of a building hereafter constructed or moved into or within the jurisdiction. The fire apparatus access road shall comply with the requirements of this section and shall extend to within 150 feet (45 720 mm) of all portions of the facility and all portions of the exterior walls of the first story of the building as measured by an approved route around the exterior of the building or facility.Exception: The fire code official is authorized to increase the dimension of 150 feet (45 720 mm) where: 1. The building is equipped throughout with an approved automatic sprinkler system installed in accordance with Section 903.3.1.1, 903.3.1.2 or 903.3.1.3. 2. Fire apparatus access roads cannot be installed because of location on property, topography, waterways, nonnegotiable grades or other similar conditions, and an approved alternative means of fire protection is provided.

Fire department access is exceeded.
