RE: Lee's Summit PWS, MO1010459, Jackson County, Review Number 1000058-19

Dear Mr. Wooten:

Enclosed is approval on plans and specifications for a waterline extension to serve Summit Orchard Lot 4, in Lee's Summit PWS, of Jackson County, Missouri.

Please be advised this facility may be required to obtain other permits from the Missouri Department of Natural Resources. It is your responsibility to insure that any and all necessary permits for this facility have been obtained.

**NOTE:** The proposed waterline will connect to an existing 8-inch main that will provide an available flow of 18,000 gallons per minute at a pressure of 77 psi.

**NOTE:** When a connection is made to a new customer or location previously served by a private well, the Public Water System is responsible for notifying the well owner of their obligation to plug any abandoned well pursuant to the requirements of Section 256.628 RSMo., and for providing the well owner with notification forms that must be completed by the owner. These forms must then be submitted to the Department by the Public Water System within 60 days of the connection.

**NOTE:** You, as the applicant, should be aware that you will need to obtain final construction approval from the Department for this project, once it has been constructed and completed. In order to do this, you will need to have your engineer complete the enclosed "Statement of Work Completed" form, or online at <https://dnr.mo.gov/forms/780-2825-f.pdf>. This may require you to make additional arrangements with your engineer to provide this service to you. Once your engineer has completed this form for you, you should return it to this office. We will then make arrangements with our regional office staff to conduct a final inspection and issue a final construction approval.
