Nicholas D. Heiser, PE
Olsson
1301 Burlington Street, Suite 100
North Kansas City, MO 64116

Mr. Heiser:

The Little Blue Valley Sewer District (District) has reviewed the plans, dated April 20, 2020, titled Hook Farms First Plat Sanitary Sewer Plans. This Plat includes one new connection to the District's interceptor sewer at District manhole No. 670E-430. These improvements will be necessary to develop the property as intended for residential use.

The District approves the design concept as described herein and as detailed in the above referenced drawings. Prior to any work on the new sewer connection at the District manhole, a completed Connection Permit Application must be submitted to the District by the City of Lee's Summit, approved by the District and the Connection Permit must be issued by the District.

If you have any questions, please contact me at (816) 299-4616.

Sincerely,

David Lilly, P.E.
District Engineer
