- 1. A stormwater study is required in order to process a waiver for peak attenuation detention, and/or 40 hour extended detention. The "Storm Water Memorandum" dated Aug. 7, 2020 included information about the site, but included only a subjective assessment of the site. The conclusions state that peak attenuation of stormwater via detention would be "costly and ineffective at best. We recommend free release of runoff...".
- 2. An island is shown within the cul-de-sac. This is no longer allowed within right of way.
