From: Sue Pyles, P.E.

Senior Staff Engineer

Application Number: PL2019393

Application Type: Engineering Plan Review

Application Name: SUMMIT VIEW FARMS 4TH PLAT - SANITARY PLANS

The Development Services Department has received payment in the amount of \$7,202.25 for the engineering plan review and inspection fee and therefore approves the engineering plans dated and sealed on January 7, 2020 for the above referenced project. These plans were initially received by our department on November 20, 2019. The following conditions must be satisfied prior to the start of construction.

- 1. Contact Development Services Inspections (816) 969-1200 at least 48 hours prior to the onset of construction.**
2. All MDNR Close-out documents related to the sanitary sewer line shall be submitted to the MDNR prior to issuance of a Certificate of Substantial Completion. Evidence that these documents have been submitted include a copy of the close-out documents, and an email statement from the engineer that the close-out documents have been submitted to the MDNR.
3. Any public improvements will require a set of record drawings. One (1) full-size (24"x36") set of records drawings (including the As-graded Master Drainage Plan) shall be submitted initially for review. The final submittal will require a complete set in a multi-page Portable Document Format (pdf).
4. Note that any improvements installed over City utilities or within City easements will not be repaired or replaced if future utility maintenance is required, including, but not limited to, pavement, curbing and guttering, landscaping, trees, shrubs, or other items.
5. Please provide 2 hard copies of the set of plans with the City's red approval stamp. They are saved under the planning application number PL2019392. They can be dropped off to the attention of Steve Robbins at the Development Services counter.

Please contact me if you have any questions or comments.

Sincerely,

Sue Pyles, P.E.

Senior Staff Engineer
