The Development Services Department has received payment in the amount of \$ for the engineering plan review and inspection fee and therefore approves the engineering plans dated and sealed on July 10, 2020 for the above referenced project. These plans were initially received by our department on May 19, 2020. The following conditions must be satisfied prior to the start of construction.

The final submittal will require a complete set in a multi-page Portable Document Format (pdf).
